Management's Responsibility for Financial Reporting

The accompanying consolidated financial statements of Peguis First Nation and all the information in this annual report are the responsibility of management and have been approved by the Chief and Council of Peguis First Nation. The preparation of periodic financial statements involves the use of estimates and approximations because the precise determination of financial information frequently depend on future events. The financial statements have been prepared by management within reasonable limits of materiality and within the framework of Canadian public sector accounting standards.

The First Nation maintains systems of internal accounting and administrative controls of high quality, consistent with reasonable cost. Such systems are designed to provide reasonable assurance that the financial information is relevant, reliable and accurate and the First Nation's assets are appropriately accounted for and adequately safeguarded.

The Peguis First Nation Council is responsible for ensuring that management fulfills its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the financial statements.

BDO Canada LLP, Chartered Professional Accountants, as the First Nation's appointed external auditor, has audited the consolidated financial statements. The Independent Auditor's Report is addressed to the Members and appears on the following page. The opinion is based upon an examination conducted in accordance with Canadian auditing standards, performing such tests and other procedures as they consider necessary to obtain reasonable assurance that the consolidated financial statements are free of material misstatement and present fairly the financial position and results of operations of the First Nation in accordance with Canadian public sector accounting standards. BDO Canada LLP has full and free access to the Council.

Independent Auditor's Report

To the Members of Peguis First Nation

Qualified Opinion

We have audited the accompanying consolidated financial statements of Peguis First Nation and its components ("the First Nation"), which comprise the consolidated statement of financial position as at March 31, 2021, and the consolidated statements of operations, changes in net debt and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion, except for the possible effects of matters described in the Bases for Qualified Opinion paragraph, the consolidated financial statements present fairly, in all material respects, the financial position of Peguis First Nation as at March 31, 2021 and the results of its operations, its consolidated changes in net debt and its consolidated cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Bases for Qualified Opinion

We were unable to obtain a third party confirmation to provide sufficient and appropriate evidence to support the existence and completeness of demand debt owing by the First Nation (Note 8). Therefore, we were not able to determine whether any adjustments might be necessary to interest expense, annual surplus, cash flows from operations for the year ended March 31, 2021, and demand debt, net debt and accumulated surplus as at March 31, 2021.

The First Nation submitted claims and has funding disputes for flood expenditures in the amount of \$4,415,502 (\$5,915,501 in 2020) (Note 6), the valuation and collectibility of which is not susceptible of satisfactory audit verification as at the year end. Accordingly, verification of these revenues was limited to the amounts recorded in the records of the First Nation and claimed to the funders. Therefore, we were not able to determine whether any adjustments might be necessary to other revenues, annual deficit, and cash flows from operations for the years ended March 31, 2021 and 2020, financial assets as at March 31, 2021 and 2020, and accumulated surplus as at March 31, 2021 and 2020. Our audit opinion on the consolidated financial statements for the year ended March 31, 2020 was modified accordingly because of the possible effects of this limitation in scope.

During the past few years, the First Nation has debt financed and loaned funds for investments to its affiliates, Chief Peguis Investment Corporation, Peguis Development Corporation and Chief Peguis Investment Trust in the amount of \$24,462,550 (Note 5 and Note 7). We were unable to obtain sufficient appropriate audit evidence over the recoverable value or completeness of these loans. Therefore, we were not able to determine whether any adjustments might be necessary to valuation impairment expenses, annual surplus, and cash flows from operations for the year ended March 31, 2021, accounts receivable, investments and financial assets as at March 31, 2021, and accumulated surplus as at March 31, 2021. Our audit opinion on the consolidated financial statements for the year ended March 31, 2020 was modified accordingly because of the possible effects of this limitation in scope.

The First Nation has affiliates and contractors who manage construction contracts for their interests. The account payables related to these construction projects is not susceptible to satisfactory audit verification. We were unable to obtain sufficient appropriate audit evidence over the completeness of accounts payable. Therefore, we were not able to determine whether any adjustments might be necessary to expenses, annual surplus, cash flows from operations for the year ended March 31, 2021, accounts payable, net debt and tangible capital assets and accumulated surplus as at March 31, 2021. Our opinion for the year ended March 31, 2020 was modified accordingly.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the First Nation in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 3 to the financial statements which indicates that management has assessed that the First Nation's debt servicing requirements and level of third party debt indicate the existence of a material uncertainty that may cast doubt about the First Nation's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the First Nation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the First Nation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the First Nation's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the First Nation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the First Nation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the First Nation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient audit evidence regarding the financial information of the entities or business activities within the First Nation to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to Consolidated Financial Statements

For the year ended March 31, 2021

1. Summary of Significant Accounting Policies

a) Basis of Accounting

These financial statements were prepared using the accrual basis of accounting in accordance with Canadian public sector accounting standards. The accrual basis recognizes revenues as they become available and measurable; expenditures are recognized as they are incurred and measurable as a result of receipts of goods or services and the creation of a legal obligation to pay.

b) Basis of Consolidation

The Peguis First Nation reporting entity includes the Peguis First Nation government and all related entities which are accountable to Peguis First Nation and are either owned or controlled by Peguis First Nation.

These financial statements consolidate the assets, liabilities and results of operations for Peguis First Nation and use accounting standards which lend themselves to consolidation. All inter-entity balances have been eliminated on consolidation, but in order to present the results of operations for each specific segment, transactions amongst programs have been eliminated on the segment disclosures separately.

The following entities' results of operations are included in these financial statements under the full consolidation method:

Unincorporated Departments

Peguis School Board
Peguis Health Services
Peguis Training and Employment
Peguis Gaming Commission
Peguis Treaty Committee
Peguis Recreation Committee
Peguis Arena Committee
Peguis TLE Implementation Office

1. Summary of Significant Accounting Policies (continued)

c) Investments

Investments in loans and portfolio investments are initially recorded at cost. Valuation allowances are used to reflect loans receivable at the lower of cost and net recoverable value.

d) Revenue Recognition

Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues. All revenues are recorded on an accrual basis, except when the accruals cannot be determined, with a reasonable degree of certainty or when their estimation is impracticable.

Government transfers are the transfer of assets that are recognized and released by the payor government and are not representative of the full benefit of the recipient government's treaty entitlements. Government transfers are not the result of an exchange transaction, are not expected to be repaid in the future or are the result of a direct financial return.

Government transfers are recognized as revenues when the transfer is authorized and any eligibility criteria are met, except to the extent that the transfer stipulations give rise to an obligation that meets the definition of a liability. Transfers are recognized as deferred revenue when transfer stipulations give rise to a liability. Transfer revenue is recognized in the statement of operations as the stipulation liabilities are settled.

e) Tangible Capital Assets

Tangible capital assets are stated at cost less accumulated amortization. Cost includes all costs directly attributable to acquisition or construction of the tangible capital asset including transportation costs, installation costs, design and engineering fees, legal fees and site preparation costs. Contributed tangible capital assets are recorded at purchased fair value at the time of the contribution, with a corresponding amount recorded as revenue. Crown lands received by Treaty Land Entitlement process are not recorded unless these are purchased by the First Nation.

Amortization based on the estimated useful life of the asset is recorded once the asset is available for productive use as follows:

Infrastructure	5% straight-line basis
Buildings	20 to 40 years straight-line basis
Equipment	6 % to 20% straight-line basis
Automotive	20% straight-line basis

Notes to Consolidated Financial Statements

For the year ended March 31, 2021

1. Summary of Significant Accounting Policies (continued)

f) Measurement Uncertainty

The preparation of consolidated financial statements in accordance with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from management's best estimates as additional information becomes available in the future.

Measurement uncertainty exists specifically in the determination of accounts receivable, loans receivable and long-term investments, useful life capital assets, termination entitlements and unexpended funding. The recovery of eligible costs and reconciliation of funding provided for emergency flood operations and other restricted funding is dependent upon future events.

g) Employee Future Benefits

The First Nation maintains a defined contribution pension plan for its personnel. Expenses for this plan are equal to the First Nation's required contribution for the year.

The First Nation also offers termination benefits to its employees upon voluntary or involuntary termination of employment. The liability for this plan is determined using the projected benefit method and based on best estimate assumptions based on the employees' projected tenure and salary. The First Nation's expense is recorded as the change in the liability for the year.

h) Restricted Cash

Restricted cash balances represent assets segregated for use for replacement reserves in accordance with CMHC and FNIHB operating agreements. Restricted cash includes trust funds held by ISC and legal counsel and cash held as security for long term debt.

i) Liability for Contaminated Sites

Liabilities for remediation of a contaminated site are recognized at the best estimate of the amount required to remediate the contaminated site when contamination exceeding an environmental standard exists, the First Nation is either directly responsible or accepts responsibility, it is expected that future economic benefits will be given up, and a reasonable estimate of the amount is determinable. At each financial reporting date, the First Nation reviews the carrying amount of any liability and remeasures.

j) Provision for Losses on Loan Guarantees

A provision for losses on loan guarantees is recorded when it is determined that the loss is likely and the amount of the provision can be estimated. The provision is reviewed on an ongoing basis and changes in the provision are recorded as expense in the year they become known.

PEGUIS FIRST NATION

Notes to Consolidated Financial Statements

For the year ended March 31, 2021

2. Nature of Entity

The First Nation is a non-profit, non-taxable entity and is engaged in the social, cultural, educational and economic development of First Nation members of Peguis First Nation. The First Nation provides services such as fire, ambulance, public works, community planning, parks and recreation, library and other general government operations. These financial statements do not include the Peguis First Nation TLE Trust, Peguis First Nation Surrender Trust and Chief Peguis Investment Trust (CPIT).

3. Going Concern Uncertainty

The First Nation has financed significant investments and other operating costs for its affiliates in the past several years. As at March 31, 2021, the First Nation's demand debt related to these investments total \$136,072,762 including accrued interest calculated at prime plus 11% (13.95% effective rate). During 2021, the servicing requirement for the demand debt was modified to temporarily reduce interest payments to \$300,000 a month if the community is under a state of emergency. During this modification, unpaid interest continues to accrue at the initial interest rate and principal repayment has been deferred. The loan facilities mature and are payable in full on the earliest of: (i) June 30, 2021; (ii) a default under the agreement or (iii) demand by the lender in partial or full demand. The burden of the interest rate and the potential necessity to repay the lender on demand at any time may impact the First Nation's ability to fulfill its financial and fiduciary obligations. Subsequent to year end, the parties are continuing to try and resolve the matter amicably and no litigation has been threatened or commenced on the loan repayment.

On March 11, 2020, the World Health Organization declared the outbreak of the coronavirus (COVID-19) a pandemic resulting in economic uncertainties impacting the First Nation. As the impacts of COVID-19 continue, there could be further impact on the First Nation, its members, employees, suppliers and other third party business associates that could impact the timing and amounts realized on the First Nation's assets and future ability to deliver services and projects. While the First Nation is confident that essential services will continue to be delivered and it will continue as a going concern, it is unknown if the return from investments or repayments of loans from affiliates will enable the First Nation to fulfill its debt obligations.

The First Nation's ability to continue delivering non-essential services and employ related staff, will depend on the funding available from its various government funders and also on its ability to generate sufficient returns from its business investments and on the successful negotiation with a new lender for long term credit facilities. The First Nation will continue to focus on managing its cashflows and leveraging existing cash reserves and available credit facilities to ensure it is able to continue providing essential services to its members and will renegotiate the debt obligations with its lenders.

PEGUIS FIRST NATION Notes to Consolidated Financial Statements

For the year ended March 31, 2021

4. Restricted Cash

Restricted cash and cash equivalents includes funds restricted by agreements with funders. Under the terms of the agreements with CMHC, the replacement reserve account is to be credited in the amount of \$55,933 (\$55,933 in 2020) annually. These funds, along with accumulated interest, must be held in a separate bank account and/or invested only in accounts or instruments insured by the Canada Deposit Insurance Corporation (CDIC) or as may otherwise be approved by CDIC from time to time. The funds in the account may only be used as approved by CMHC. Withdrawals are charged to interest first and then principal.

7. Long-term Investments (continued)

The loans receivable is related to three businesses: Peguis Hardware LP, Peguis Foods LP, and Peguis Midway LP that were sold to Chief Peguis Investment Trust in 2014 for the sum of \$1,600,000 in aggregate. The original loan amount was demanded in previous years resulting in partial repayment prior to 2020.

8. Demand Loans

	2021	2020
Royal Bank of Canada demand housing loan	\$ 325,380	\$ 348,685
Bridging Finance Inc., including accrued interest	136,072,762	122,379,225
	\$136,398,142	\$122,727,910

The Royal Bank of Canada bank overdrafts and demand facilities are due on demand and bear interest at 1.43% (2.70% in 2020). They are secured by a Directional Payment Agreement acknowledged by the Federal Government agencies covering all funding.

The Bridging Finance Inc. demand loan is due on demand and bears interest at the Bank of Montreal Prime Rate plus 11%. The facility may be prepaid in full or partially at any time. The demand loan is secured by a general security agreement, registered mortgages on land, assignment of leases and rents, assignment of all property and perils insurance.

In June 2020 the servicing requirement of the loan was modified to temporarily reduce interest payments to \$300,000 a month while the community is under state of emergency. During the modification, unpaid interest continues to accrue at the initial interest rate and principal repayment has been deferred. The loan facilities mature and are payable in full on the earliest of: (i) June 30, 2021; (ii) a default under loan agreement or (iii) demand by the lender in partial or full demand. Subsequent to year end, the parties are continuing to try and resolve the matter amicably and no litigation has been threatened or commenced on the loan repayment.

9. Accounts Payable

10. Employee Future Benefits

Accrued Termination Entitlement

Accrued termination obligations are based on an actuarial valuation as at March 31, 2021.

The First Nation's contractual commitment for the termination entitlement for employees is to pay out 1 week of salary for each year of service upon voluntary or involuntary termination of employment, if the employee has full-time status of employment and has completed one full year of service, subject to certain maximum entitlements.

The significant actuarial assumptions adopted in measuring the First Nation's accrued termination entitlement include actual periods of service, including fractional years and projected salaries to the date of termination. Significant assumptions include a discount rate of 5.0% (5.0% in 2020), a rate of salary increase of 4.5% (4.5% in 2020) plus an age related merit/promotion scale, probability of termination and retirement.

An analysis of the changes in the employee benefits payable is as follows:

	2021	2020
Balance, beginning of year	\$ 2,486,851	\$ 2,059,198
Net increase (decrease) in termination entitlements	(58,930)	427,653
Balance, end of year	\$ 2,427,921	\$ 2,486,851

Pension Plan

The expense for the First Nation's pension plan for the year was \$799,502 (\$894,798 in 2020). The plan is funded equally by the First Nation and the First Nation's employees at rates of 5.0% to 5.5% of the employee's salaries. The funds are invested in mutual funds as directed by the First Nation's individual employees' investment directives.

11. Unexpended Funding

The unexpended funding balance represents funding advances provided to Peguis First Nation by the Department of Indigenous and Services Canada and the Government of Canada and other sources.

16. Commitments and Contingencies

The First Nation has guaranteed on-reserve mortgages for its members. As at March 31, 2021, \$1,204,296 (\$1,202,966 in 2020) has been guaranteed by the First Nation. Of this amount \$1,204,296 of the loans were in default at year end and as the First Nation does not exercise security on these balances a provision for this amount has been recorded in the First Nation's records. Subsequent to year end, members have begun making payments on these personal on reserve mortgages.

The First Nation has guaranteed a line of credit of \$75,000 for Peguis Hardware LP. At March 31, 2021, the limited partnership had \$75,000 of undrawn capacity under this facility. (\$75,000 in 2020).

The First Nation has guaranteed a line of credit of \$100,000 for Peguis Midway LP. At March 31, 2021, the limited partnership had \$5,000 of undrawn capacity under this facility. (\$5,000 in 2020).

The First Nation has guaranteed First Peoples Economic Growth Fund loans for Peguis Pharmacy LP and Peguis Foods LP with balances \$144,445 (\$165,583 in 2020) and \$304,251 (\$373,093 in 2020).

The First Nation has been named in a countersuit with a former advisor for contingency and other billings. Legal counsel has advised that it is unlikely that the countersuit will be successful. The First Nation's claim against the advisor may provide a recovery of \$3,200,000 to \$5,000,000 of costs already paid. A provision for this claim has not been made in the financial statements as this is dependent upon future events.

The First Nation defends itself from claims from time to time based on its operations. Management believes it has valid defences to minimize risk of possible loss. In the event any claims are successful management will recognize the potential loss once amounts are confirmed or are reasonably estimated.

19. Budget

The Management Action Plan (Budget) adopted by Council was not prepared on a basis consistent with that used to report actual results (Public Sector Accounting Standards). The budget was prepared on a modified accrual basis while Public Sector Accounting Standards now require a full accrual basis. The budget expensed capital expenditures rather than including capitalizing the assets. As a result, the budget figures presented in the consolidated statements of operations and change in net debt represent the Financial Plan were without adjustments for capital programs:

Management Action Plan (Budget) deficit for the year	\$ (4,580,609)
